Lesson Summary

Reading

1. Simple Present Tense

The simple present tense talks about actions that happen every day, habits, facts, or things that are generally true.

How to recognize it?

The verbs usually stay in their base form (like play, eat, go) except for the third person singular (he, she, it), where we add -s or -es (like plays, eats, goes). Sometimes, instead of the main verb, we use **verb to be** (am, is, are) or **verb to have** (have, has).
